

# Help Customers Make Good Choices

Biocool manufacture care and cleaning products safe for caravans, motorhomes, and boats. Our mission is to reduce harmful chemicals like chlorine and silver, offering customers safer, more effective alternatives.

## Why Biocool?

Biocool provides high-quality water purification, sanitation, and mould treatment solutions for boating, caravans, outdoor, and hygiene markets.

Our patented, chlorine- and silver-free formulations ensure unmatched safety, sustainability, and convenience.

Developed and produced in Sweden, our products prioritize simplicity, effectiveness, and regulatory compliance for both people and the planet.

## Biocool - Hero Products

### Clean water tank

**Clean my water tank** is a All In One - complete water system care product. Cleans fresh & grey water tanks, water pipes, hoses and taps based on highly effective Oxy-tech formula.

### Water Purification

**Purify my drinking water** keeps water fresh and safe for 3 months. Easy to use – Add the product to water, let it sit, and it's ready to drink!

### Oduor neutralising septic tank

**Sanitise my holding tank** is a sanitation tablet that eliminates bad oduors in toilet tanks, breaks down waste and toilet paper, making emptying easier. Suitable for waste tanks in caravans, motorhomes, and boats.

### Algae & mould cleaning

**Biocool Spray Away Mould** is the perfect solution for effectively eliminating mould without harsh chemicals. Easy to use and safe for both you and your recreational vehicles. Say goodbye to mould – quickly, safely, and gently!
