# Quick Guide Wi-Fi Set Up

Our products are not like others. We believe that through innovative solutions and a respect to our 70 year old Norwegian heritage and craftsmanship, we can deliver products of high quality. Your new Adax Wi-Fi heater is no exception. Congratulate with your new Adax Wi-Fi heater and thank you for choosing us. Warm wishes from Adax.

### Menu:

Account: Account ID, version number

## Zone:

Adjust temperature in a zone, Child look, Calibrate heater, Open window detection

# Product:

Add product, Edit name, update firmware.

#### Week program: 4 defined programs, add/

edit week programs.

### Installation tips:

If you have a dual band (2,4 and 5GH2) router – make sure your phone is connected to your 2,4GHz Wi-Fi when installing your heaters. If you have several heaters – turn on one and one heater when installing them to the app.

Search for "Adax Wifi:

#### 1. Download the "Adax Wifi" app and create user.

3. Enter your Wi-Fi SSID (network name) and push and hold + and - on your heater, when "SC" shows in the heater display, click "search for heater" in the app.

#### 2. Install new heater

4. The heater is installed. Name your heater, ex. "livingroom" and push "save".
