Skandinavisk Spismiljö AB Data Act:

Berörda produkter hittas i serierna **Prestige 500 Connected, Prestige 665 Connected och Prestige 500 Connected Phantom**

- **What data is generated -Type, Format, and quantity.**
  - **Sensor data such as temperature, power level, tank weight**
  - **Approximate Location data**
  - **User settings such as target temperature, alerts, timers, and temperature unit.**

Each usage session generates small datasets ranging from 0.5Mb to 10Mb

Data generated are in JSON/CSV.

- **How often data is created -Continuous or real-time.**
  - **Data generated is continuous and periodic where applicable.**
    - **Sensor data may be collected continuously when in use and periodically when idle.**
    - **Data like weather information is collected periodically.**

- **Storage - Whether data is saved on the device or remote server, and for how long.**
  - **Data is stored on the device temporarily and in a remote server for a duration ranging from a minimum of 30 days to a maximum of 3 years.**

- **Access and Management - How the user can retrieve, delete, and manage data.**
  - **A user can make changes to their information by emailing privacy@napoleon.com or Eu.Privacy@napoleon.com. You may request a copy of the data generated via account tools (implementation pending) or customer support.**
  - **Deleting an account directly on Napoleon Home deletes the user's personal information and links to any device data. The device may continue generating data for operational use and will only transmit data if connected to the internet.**
